INSIGHTS AND RECOMMENDATIONS

Insight 1: Chocolate chip had the highest cost (\$676,479), generating about \$1.69M of the total revenue (\$4.69M) and Fortunate Cookie had the lowest cost (\$77,009) and generated the lowest revenue (\$154,198).

Recommendation: Focus promotion on chocolate chip and making it more available to customers while improving on fortunate Cookie through better marketing and adding new features like new flavors and better packaging to improve quality.

Insight 2: October generated the highest revenue with a total of \$821,032, next was December (\$651,577), while May recorded the lowest revenue (\$215,866).

Recommendation: Start reminders like emails, or messaging to regular customers between 1 to 2 weeks before October, also introduce new limited flavored cookie while steadily making old ones more available in October. In months January to may, run specials offers during this period and partner with schools.

Insight 3: About 329676k units were sold in Green Bay making the highest sale which was followed by Huntington (266892k units sold) while Seattle had the lowest sale (128768k units sold).

Recommendation: Focus on increasing supply and creating more availability of products in Green Bay and Huntington while developing strategies to find out what works in Seattle and other under performing cities.

Insight 4: ACME Bites(Customer 3) located in Green Bay city purchased the most unit while Tres Delicious(Customer 1) purchased the least units.

Recommendation: Focus on retaining ACME Bites by building a strong relationship and interaction to understand why they purchase more and maintain the standards that keep them while encouraging Tres Delicious through promotions and reminders and also find out more why their purchases are low and how it can be improved, could be location since they located in under performing city (Seattle).

Insight 5: Chocolate Chip had the most profit with about \$1M and Fortunate Cookie had the least profit with about \$77k.

Recommendation: Expand sales of chocolate chip by increasing availability in stock and wider distribution while reviewing prices, quality and marketing of Fortunate Cookie to meet up customers choice or interest.
